Dear Colleague

I write this letter to you as head of the Laboratory for the Cytogenetic and Molecular diagnosis of Cancer, of the University Hospital Leuven, Leuven Belgium, in order to express my great gratitude and support for your project "*Atlas of Genetics and Cytogenetics in Oncology and Haematology*".

I, as a cytogenetician in haematological malignancies, do frequently consult this web site, as it provides a wealth of information on the cytogenetic and genetic abnormalities in various forms of cancer. For my daily work, it constitutes an essential first-line resource, which complements the Mitelman catalog, which is more in-depth but far less user friendly.

I therefore sincerely hope that this project will be continued in the future

Prof. dr. Peter Vandenberghe MD PhD  
Kliniekhofd CME  
UZ Leuven
